*I have seen the world on fire  
And, the sky without a moon  
All is a circle within me.*

*-Roshi Joan Halifax*

Join us in late spring as a small group of seekers gather together in a remote high desert canyon—a uniquely beautiful jewel of the Mojave National Preserve. The invitation of the Vision Fast is to carry an open heart, an empty belly, and only the most essential of gear. During your solo time of 4 days and 4 nights, you will be held by the wild and tender embrace of the natural world. This will be a powerfully transformative opportunity to shed old ideas about yourself that have become barriers to growth, and to open to the space within that carries the seeds of new life.

Your non-human companions will include Pinon, Juniper, rabbit, deer, hummingbird and snake. Sun and stars illumine ancient rock formations that will set fire to your imagination. The canyon, dynamically still and pulsing with life, will invite your spirit to taste its natural freedom.

In this intimate corridor of a vast, open desert, you will be held by guides that are seasoned in supporting the human journey through the intricate and ever-changing cycles of living and dying. Leading from the heart of wisdom and the wisdom of heart, your guides will usher you through a journey of discovering how the precious gift of your true nature is of greatly needed benefit for all beings.

**Cynthia Morrow**, MFT is a seasoned psychotherapist of 20 years, a wilderness rites of passage guide, and biodynamic craniosacral practitioner. Her work is devoted to bringing the embodied, passionately awakened soul of wild nature into our lives for deep healing, inner strength, and whole-heartedness.
